HOW TO USE THIS CHART

[illegible]

continued expion of your knowledge and use of the subjects.

5. In your study of this chart (and in any study) be sure you do not go past words you do not understand. Use a good dictionary. There is also an Abridged Scientology Dictionary available from your Church of Scientology.

6. When you have a question about something on this chart always get it answered. Contact the Registrar of your nearest Church of Scientology. She is the expert who will help you to verify your next step.

With this chart in front of you, you have already made the most important step of all—you have contacted truth and the route to freedom.

It is hard for Man in his present condition to grasp even that higher states of being exist. He had no literature about them, really, or any vocabulary for them. In all of philosophy he had no glimmering at all of Duranetics and only a distant hope for spiritual freedom as in Scientology, but no technology at all.

Dianetics (Greek, *dianoein*—through soul; through thought): introduced May 1950 with publication of *DIANETICS: The Modern Science of Mental Health*, international best-seller by L. Ron Hubbard, which contains his early discoveries about the mind, including the first isolation of the single source of human aberration and psychosomatic ills, and a technology for their invariable resolution.

Standard Dianetics: Major research breakthroughs of 1968 and 1969 resulted in final codification and release of standard technology, including increased range and capability. The product of Standard Dianetic Technology is a healthy, happy, high-I.Q. human being.

Processing to Dianetic Case Completion further makes a person ready for successful study and application in Scientology and the gaining of increasingly higher levels.

a person being audited toward Clear. Note that one audited (processed) all the way to Grades V and VI and POWER PLUS Release) without auditor training.

(noun): one who has become free of a difficulty or "block" stemming from the mind. One can "go on any subject. But the exact subjects which one must need in order to undertake Clearing are those listed on art. They are called Release GRADES because they are an exact gradient.

defined in Line 19, Column M.

from Greek letter theta, traditional symbol for thought, the spiritual being himself—not the mind, the body, which is aware of being aware.
